

In this presentation

1. The Dutch National Subsidy Scheme for nature conservation (broader context)

2. the instruments

3. Executing 'the Good Conversation'

1. The Dutch context

The Dutch Nature Network

60 beheertypen Natuur en Landschap

Nature Index

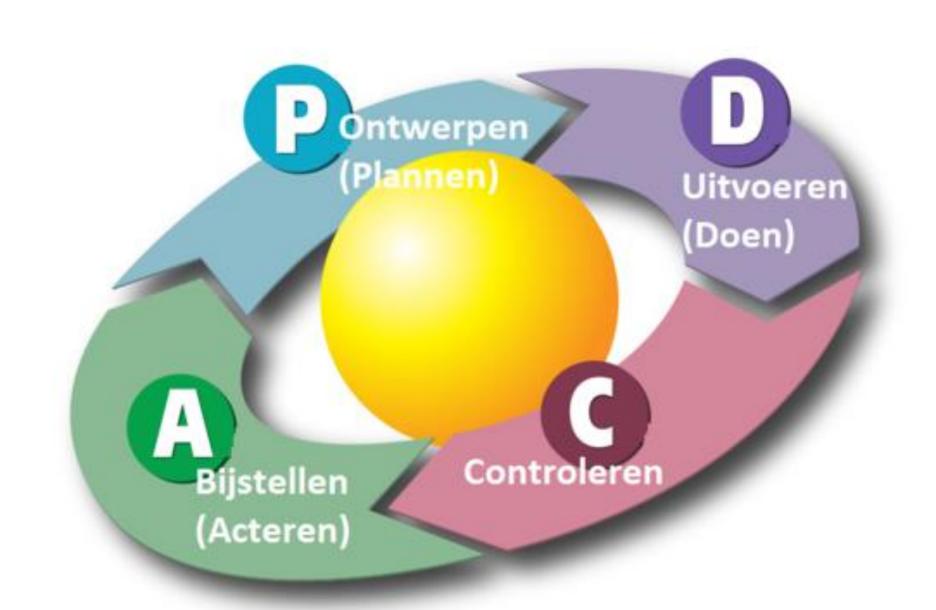

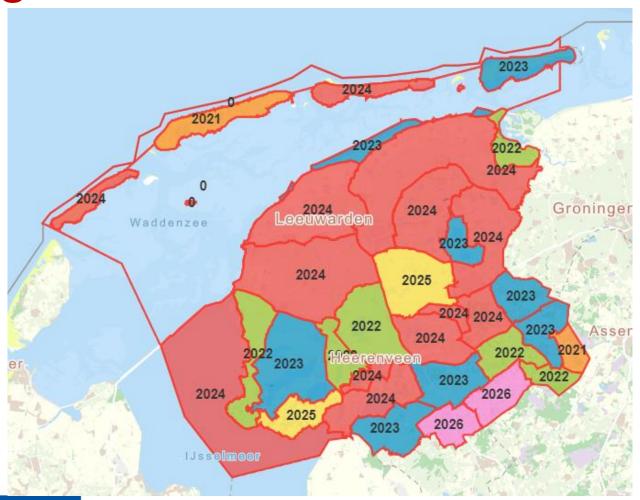

The instruments

- 1. Subsidy regulation
- 2. Nature management plan
- 3. Index Nature and Landscape
- 4. Certification
- 5. Monitoring
- 6. The good conversation

Executing the Good Conversation

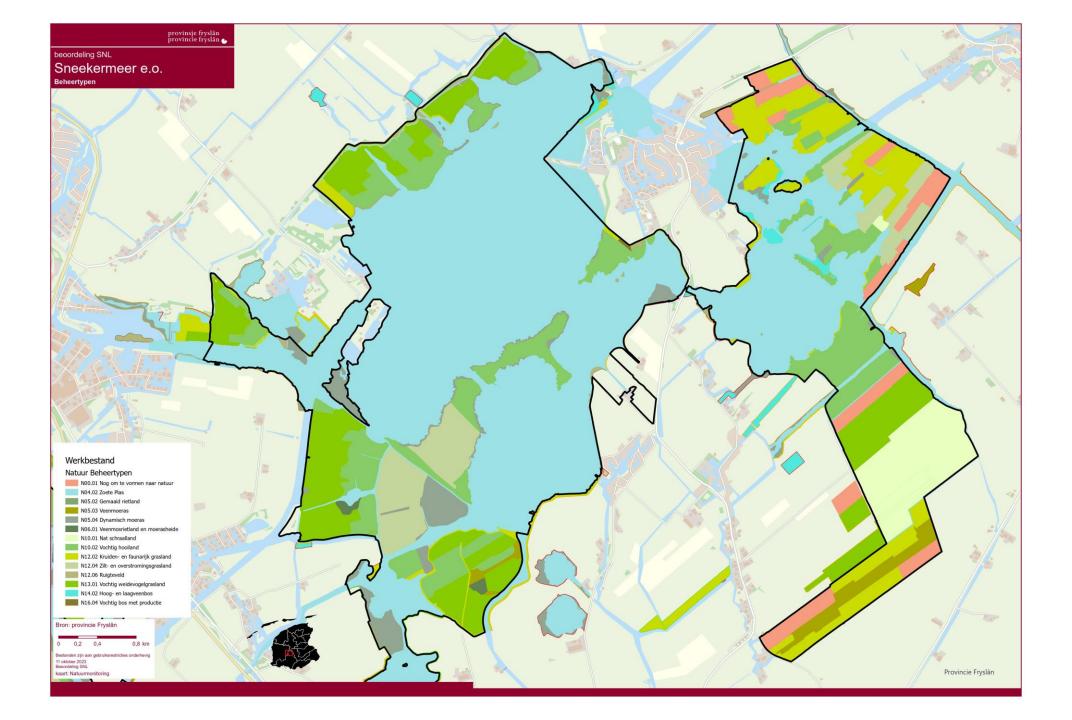

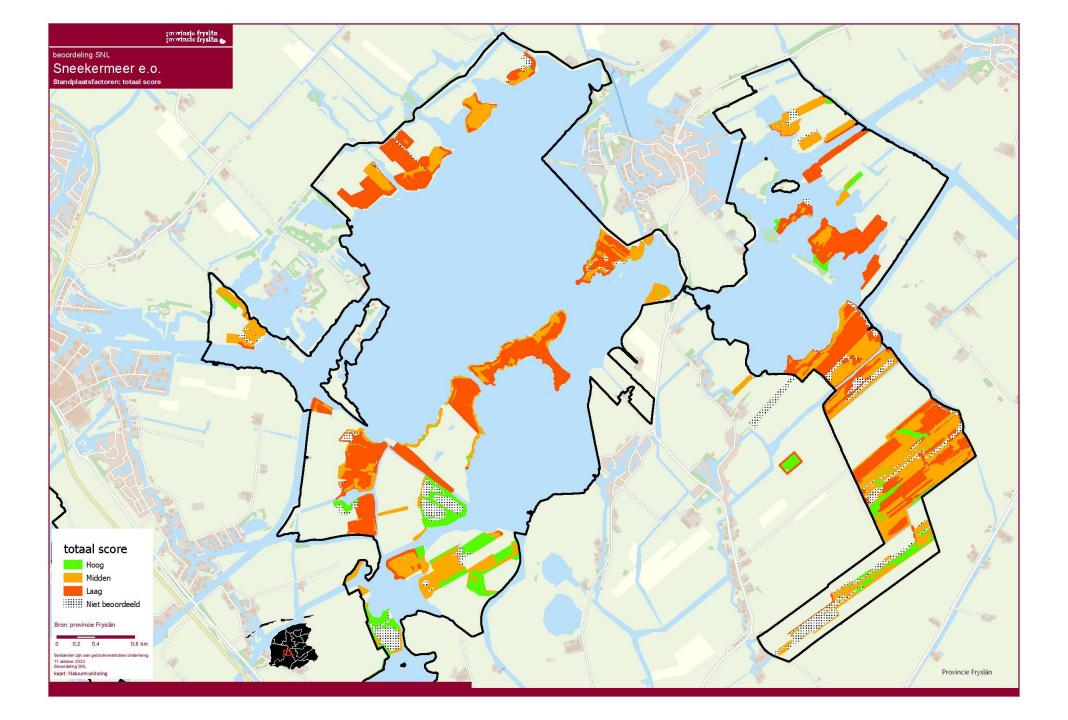

Executing the Good Conversation

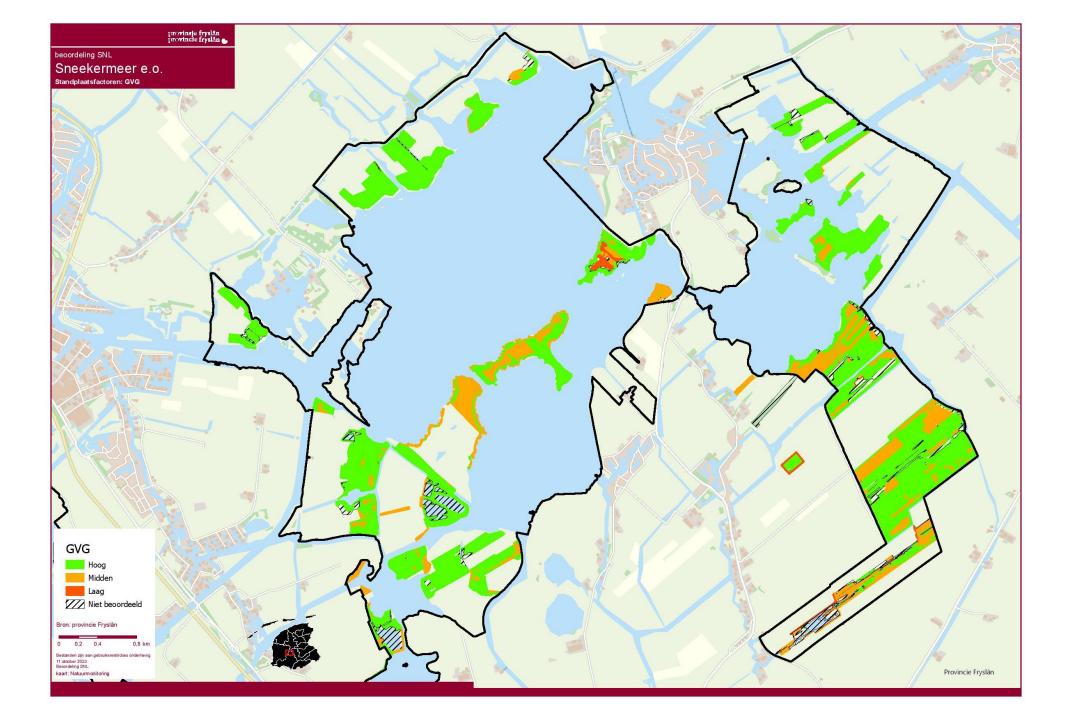

- 1. Analysis of nature quality
- 2. Discussion of the results
- 3. Creating to-do list

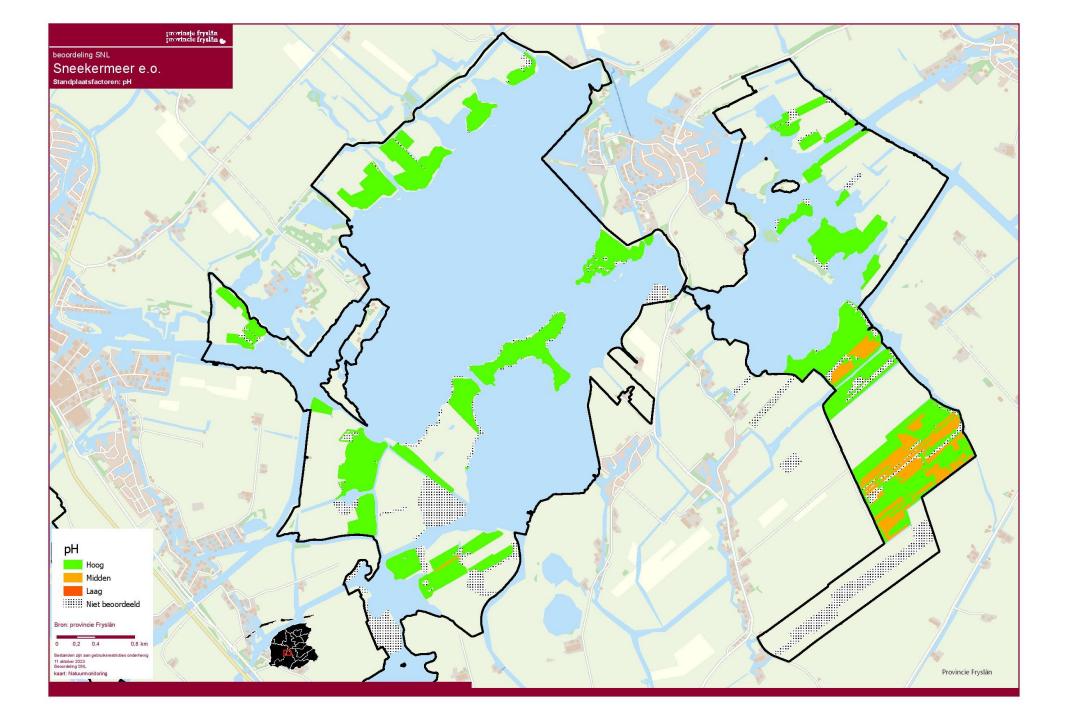

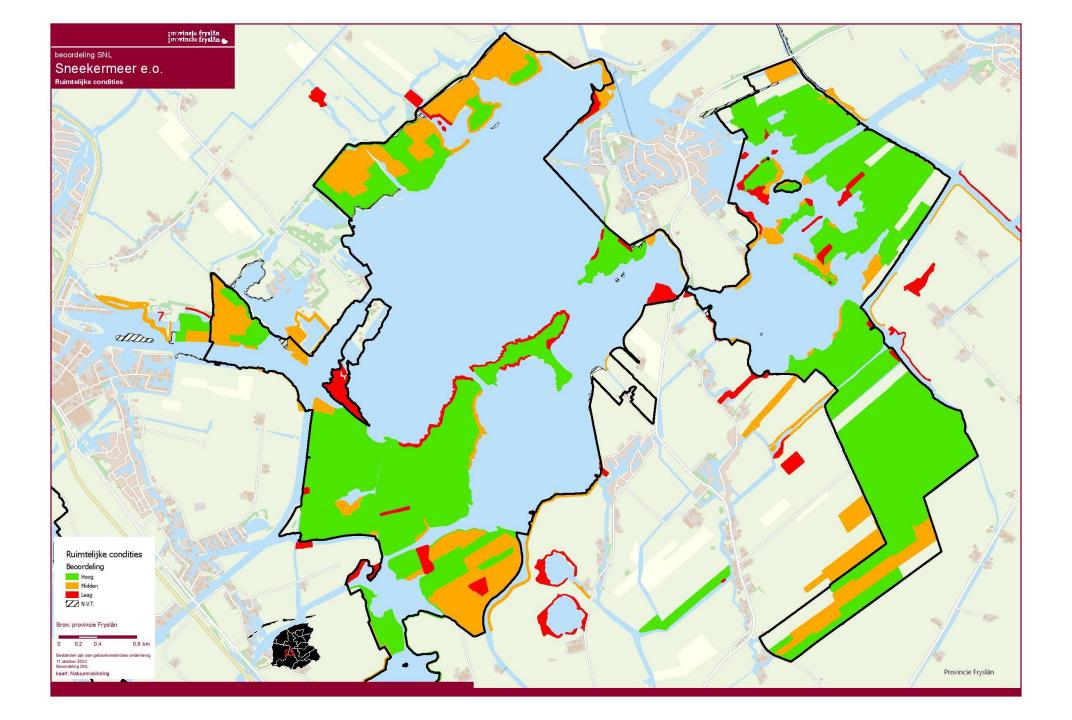

To- do list

- > Agree upon the goals (nature types) that need to be maintained/realized
- > To agree upon the needed/desired quality op the nature types
- ➤ To agree upon future ambitions
- >To arrange the measurement that will be executed in the terrain

	BO-gebied Actie	Actiehouder	Wannee	Status
	Wite-Swarte 🛘 meer variatie aanbrengen in het bestaande innundatiebeheer	Staatsbosbeheer	Per direct

Possible measures

- Optimizing maintenance
- > Changing the terrain or terrain conditions
- > Solving area- trancending problems
- ➤ Changing Nature conservation plan
