Horizon 2020 grant agreement – Open Access

"Ensure open access… as soon as possible and the latest on publication, deposit a machine-readable electronic copy of the published version or final peer-reviewed manuscript accepted for publication in a repository for scientific publications"

Source: H2020 Programme, Multi-Beneficiary General Model Grant Agreement
http://ec.europa.eu/research/participants/data/ref/h2020/mga/gga/h2020-mga-gga-multi_en.pdf

4 steps to getting open access articles

1. **Submit papers to a journal of choice**, there is no restriction. If a researcher chooses to publish in an OA journal, publishing costs can be reinbursed within the project period and budget.

2. **Deposit** final manuscript or publishers PDF in a repository, either institutional or disciplinary.

3. **Acknowledge project funding,** both in the publication and in the metadata: each publication should add the EC grant agreement number.

4.**Each paper** must have a **publication date,** a **date of release in open access** (Embargoed if necessary) and a **persistent identifier.**

Issues to consider

- Publishing all articles in APC based OA journals is probably no the right solution as it can lead to a substantial amount of the project budget. → a mix of depositing articles and publishing in OA journals is higly recommended.

- The growing OA market comes with some challenges. → lots of new publishers/journals some of questionable quality. Consult white list such as http://doaj.org/

Which areas are participating?

Projects started in 2014-2016

Limited ORD Pilot

- Limited ORD pilot: some areas: Check Article 29.3
- DMP/Dataset
- Possibility to opt-in or opt-out

From 2017

Extended ORD Pilot

- Participating is **default** option for **all** projects
- 1 DMP/Project
- Possibility to opt-out

Services

Reseacher, research community, content provider, or manager of research? Find a service that matches your needs.

Policies

Looking for information and instructions on open science policies? Access our resources or ask us a question.

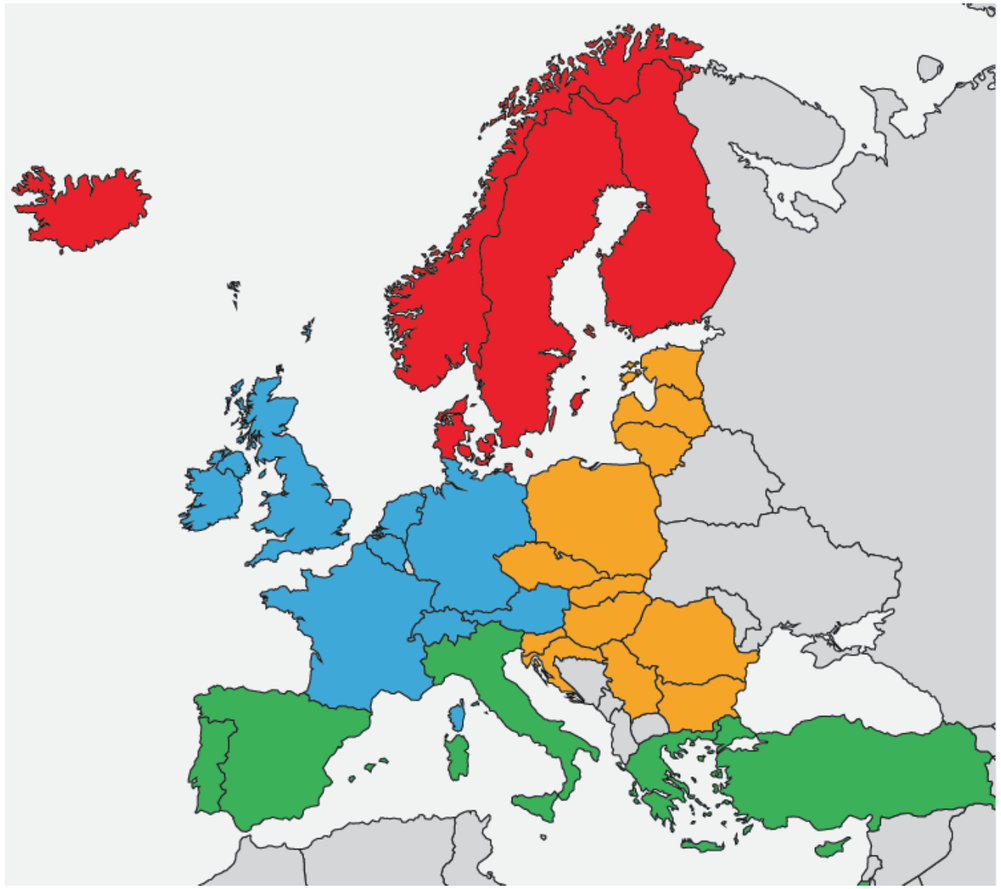
Training

Need to learn how to implement open science? Browse through our guides and webinars. See what is coming next, or contact us for assistance.

Project OpenAIRE basis :

- Human support network
- Infrastructure
- Politics

Project OpenAIRE



- International project, EC
- Long-term project
  - OpenAIRE (2009-2012)
  - OpenAIRE plus (2012-2014)
  - OpenAIRE (2015-2018)
  - OpenAIRE-Advance (2018-2020)

Project OpenAIRE - Latvia

- Regional representative - University of Latvia

- Functions:
  - support for researchers, research project managers, science policy makers, publishers, library specialists all over Latvia
  - explaining open access ideas to the society
  - providing information to interested parties / representatives of the scientific community outside Latvia

  - **National Open Access Desk – Latvia**
