

eBooks

from Future Science Group

Your essential resource
for scientific research

www.future-science-group.com/ebooks

Features

Future Science Group's eBook programme provides students, researchers and clinicians access to an exciting online collection, illustrated and presented to the highest standards

Fully indexed and searchable to chapter level

Delivered from existing platforms, interconnected to other FSG content

No DRM – users can choose how they wish to access content. FSG eBooks can be delivered and utilized on most devices

Fully integrated into the library catalogue

Free MARC records

COUNTER compliant usage statistics

OpenURL compliance

Subscription or one-time purchase models

With access to FSG's total book content in digital form, the FSG eBook programme is your essential resource for scientific research

Subject collections

Future Science Group eBooks are grouped into collections so that libraries can quickly locate the exact content their patrons require and users can rapidly find and use the information they need.

Subject areas include:

- Cardiology
- Dermatology
- Hematology
- Immunology
- Infectious Diseases
- Neurology
- Oncology
- Respiratory Medicine

Individual Future Science Group eBooks are available directly from www.futuremedicine.com or through participating booksellers, subscription agents and online partners.

Annual top-up collections will be available for a reduced rate.

Pricing & Availability

Future Science Group eBook Collections are available through various models to meet your institution or corporation's specific needs. We offer Academic, Hospital, Government and Corporate Single Site, Multi-Site and Consortia Licences.

Future Science Group eBooks are offered for one-off purchase as an annual package, or via a subscription model. Libraries and institutions can either purchase the entire annual collection or may purchase any number of Subject Collections.

Full archiving rights with continuous access to purchased content are free as long as the subscribing institution's account remains active with Future Science Group.
