Explanations:

Individual work under pedagogical leadership – student works autonomously with given tasks and lecturer consults student.

Practical course – the course in which you will do practical things, additional materials are usually required.

Lectures with latvian group - the course is held together with latvian students, but lecturer will also provide information in english. Great opportunity to get to know Latvian language and culture. ☺

Only for students with bachelor degree in Psychology – only for those students, who have completed undergraduate studies in Psychology field.
