

**22 April 2015**

**16:00 - 18:00**

The Faculty of Physics and  
Mathematics  
of the University of Latvia,  
Zelju Str. 8  
Room 233

## Student Positions Computer, Electrical and Mathematical Science and Engineering at KAUST

### Opportunities at KAUST:

- Graduate fellowships for MSc and PhD students
- Research visits for students
- Scientific collaborations

### Presented by:

#### Aigars Ekers

Assistant Dean in CEMSE Division at KAUST

**Former faculty member at the University of Latvia**

#### Edgars Stegenburgs

MSc student in CEMSE Division at KAUST

**Former student at the University of Latvia**

The fellowships support academic training and hands-on research in highly advanced state-of-the-art laboratories offered by the Computer, Electrical and Mathematical Sciences and Engineering (CEMSE) Division at KAUST:

- Applied mathematics & computational science
- Computer science
- Electrical engineering, photonics & nanotechnology.

Students with strong background in mathematics, physics, and computer science are encouraged to apply. Further opportunities for studies related to chemical, physical, biological and Earth sciences exist in other divisions of KAUST. The fellowships include competitive stipends, family benefits and housing on the international campus of KAUST on the Red Sea coast - one of the most advanced new graduate research universities worldwide. Excellent learning opportunities are ensured by world-class faculty supervision and access to in-house large-scale facilities for material production and characterization, as well as one of the world's top 20 supercomputers. The graduates benefit from concrete career opportunities in industry and academia worldwide following the studies.

To submit applications all year round please visit:
